Location: New Delhi, Delhi

EDUCATION

Manipal Institute of Technology, Manipal *Manipal, Karnataka • May 2027*
B.Tech** in **Information Technology (CGPA: 9.12/10.0)

Delhi Public School R.K. Puram *New Delhi • 2023*
Class 12 - CBSE (90.2%) • Class 10 - CBSE (93.5%)

TECHNICAL SKILLS

Programming Languages: Java, Dart, Python, C++, TypeScript, JavaScript, SQL
Mobile & Android Dev: Android SDK, Flutter, Activity & Fragment Lifecycle, Gradle Builds, Location Services, OpenStreetMap/Maps APIs, SQLite/Room, Asynchronous State Management
Backend & Systems: RESTful APIs, WebSockets, Spring Boot, Node.js, Express.js, Redis Caching, Distributed Systems, Docker, Linux, CI/CD
Core Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design, Concurrency & Multithreading
Databases & Cloud: Firebase (Auth, Firestore, Storage), PostgreSQL, MySQL, MongoDB, AWS, Git, Android Studio

ACHIEVEMENTS & CERTIFICATIONS

- **Achievers Scholarship** - Ranked in Top 5% of Information Technology cohort at MIT Manipal
- **Academic Excellence** - Maintained consistent CGPA of 9.12/10 across all semesters
- **Open Source Contributor** - Open Mainframe Project (Zowe) and Zephyr Project
- **Professional Certifications** - Google Cloud Digital Leader & AWS Generative AI Applications (Coursera)
- **CCNA (Cisco Certified Network Associate)** - Modules 1–3 Completion Certificates (Cisco NetAcad)

EXPERIENCE

Software Development Intern *June – July, 2025*
Indian Railway Catering and Tourism Corporation (IRCTC)

- Analyzed enterprise ticketing architecture handling 2M+ daily transactions, mapping high-concurrency request pipelines and identifying system latency bottlenecks
- Optimized relational database queries by 25% via execution plan profiling and index restructuring; built automated monitoring scripts in Python
- Evaluated microservice communication and distributed tracing protocols to improve fault isolation across concurrent booking surges

Software Intern *June – July, 2026*
AeroSportsParks

- Designed a Redis-based caching layer for recurring-user sessions, cutting database read loads by 35% and reducing API response latency
- Built an automated schema metadata visualizer fetching live relationships from AWS EC2 using object-oriented design principles
- Engineered data migration pipelines to safely transition production records across database architectures with zero data loss

PROJECTS

AI Travel Planner | Cross-Platform Mobile Application | GitHub • View Live
Flutter, Dart, Android SDK, Firebase, OpenStreetMap, REST APIs, Android Studio

- Engineered a cross-platform mobile application integrating device LocationManager and OpenStreetMap for real-time geolocation tracking and route rendering
- Configured native Android platform specifications in Android Studio: managed AndroidManifest permissions (Fine/Coarse location, Network State) and Gradle build configs
- Implemented real-time cloud sync and offline data persistence using Firebase Firestore, ensuring zero data loss during network disruptions

FairShare | High-Concurrency Expense Splitting Engine | GitHub • View Live
Java 17, Spring Boot 3, JPA/Hibernate, Docker, React, JUnit, REST APIs

- Built a high-performance backend using Java 17 and Spring Boot with clean OOP design patterns (Observer, Factory) for complex multi-party transaction settlement
- Designed relational schemas with JPA/Hibernate, optimizing query execution and ensuring ACID transaction consistency across payment records
- Containerized services with Docker and implemented automated JUnit integration test suites achieving 85%+ branch coverage

QuickDrop | Low-Latency Real-Time Event Platform | GitHub • View Live
Node.js, Express, Socket.io, WebSockets, MongoDB, React, Tailwind CSS

- Built a real-time event streaming and data sharing platform with bi-directional WebSockets, delivering sub-100ms message and payload dispatch
- Implemented ephemeral room state management and automated session cleanup, maintaining low memory footprints under concurrent connections
- Engineered client-side network reconnection logic and chunked binary transfers up to 10MB with error-tolerant upload retries

LEADERSHIP & ACTIVITIES

Organizing Committee Member — Sports (Chess) *March 2025*
Revels'25, MIT Manipal

- Led logistics coordination for chess tournaments with 200+ participants, managing registration and bracket systems with a 12-member team
