

SAKSHAM GUPTA

1-C,CK-5 Chanakya Rail Enclave, Chanakyapuri, New Delhi

+91-9354369079 | saksham77779@gmail.com | linkedin.com/in/Saksham-Gupta-LI | github.com/Saksham-Gupta-GH

EDUCATION

Manipal Institute of Technology, Manipal

Manipal, Karnataka • May 2027

B.Tech in Information Technology

CGPA: 9.16/10.0

Delhi Public School R.K. Puram

New Delhi • 2023

Class 12 – CBSE (90.2%)

Class 10 – CBSE (93.5%)

EXPERIENCE

Software Development Intern

June 30 – July 14, 2025

Indian Railway Catering and Tourism Corporation (IRCTC)

- Analyzed enterprise booking system architecture serving 2M+ daily transactions, identifying 3 key performance bottlenecks
- Collaborated with 8-member development team using Agile methodology to optimize database query performance by 25%
- Evaluated scalable system design patterns including microservices architecture for high-traffic applications
- Documented technical specifications for booking workflow improvements using industry-standard design patterns
- Assisted in automating database performance tests using Python scripts to simulate concurrent transactions

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C++, C, PHP

Web Technologies: Flask, Node.js, React, REST APIs, HTML/CSS

Databases, Tools & Security: SQL, MongoDB, Git, VS Code, IntelliJ IDEA

Systems & Embedded: ARM Cortex-M3, Interrupt Handling, Linux, Shell Scripting, Windows

Problem Solving: Data Structures & Algorithms, System Design, Competitive Programming

Software Engineering: SDLC, Agile Methodology, Requirements Engineering, Software Testing, UML Diagrams, Risk Management

PROJECTS

SafePay | Secure Payment System | [GitHub](#) • [Live](#)

- Built a secure full-stack payment system using Flask and MongoDB with AES-256 encryption, digital signatures, and secure session handling.
- Integrated ML-based fraud detection model achieving real-time transaction validation with 85%+ accuracy
- Established role-based authentication, concurrent balance management, and complete transaction audit trails

Fileshare | Real-Time File & Text Sharing | [GitHub](#) • [Live](#)

- Engineered a real-time room-based file and text sharing app using Node.js, Express, and WebSockets
- Created ephemeral rooms and auto-expiring messages/files for privacy and low storage usage
- Supported file uploads (≤10MB) with Multer and optional PostgreSQL-backed room metadata

Code2Flow | AI Code-to-Flowchart Generator | [GitHub](#) • [Live](#)

- Created an AI-powered tool that converts source code into deterministic ASCII flowcharts using Gemini API and Flask
- Designed a hybrid pipeline separating LLM-based control-flow extraction from deterministic Python rendering for stable output
- Established keyword-based normalization and validation to handle unreliable LLM formatting and minimize API usage

LEADERSHIP & ACTIVITIES

Organizing Committee Member — Sports (Chess)

March 2025

Revels'25, MIT Manipal

- Led logistics coordination for chess tournaments with 200+ participants, managing registration and bracket systems
- Collaborated with 12-member cross-functional team ensuring 100% on-time event execution during cultural fest

ADDITIONAL

Languages: Hindi (Native), English (Proficient)

Interests: Competitive Programming, Chess, Badminton, Reading

ACHIEVEMENTS

Achievers Scholarship (Top 5% in IT)

Active contributor to open-source projects
